PAUL PROFFER, M.D.

Owner, Proffer Surgical Associates

Dr. Proffer is an oculofacial plastic surgeon specializing in cosmetic and reconstructive procedures of the face and neck. His practice interests include reconstruction after skin cancer removal, as well as surgical, nonsurgical and laser rejuvenation. He also has the honor of being a certified injector trainer with Allergan.

Dr. Proffer was raised in Amarillo, Texas and returned in 2006 to start his practice, Proffer Surgical Associates.

LEANNE YOUNG, PH.D.

Executive Director, Brain Performance Institute

Young began her career conducting blast injury research for the Department of Defense and their Combating Terrorism Technical Support Office to obtain the first histological evidence of primary blast-induced brain injuries. After 20 years at the DOD, she pursued a doctorate in cognitive neuroscience and joined the Center for BrainHealth as executive director of the Brain Performance Institute.
